Subject: Assessment Garfield Point Road

To the Select Board,

The Garfield Point Road Association met on August 31 to discuss options for maintaining/improving Sylvan Road, Point Road and the ancillary roads that intersect with these arteries. Shawn Tryon attended the meeting to provide input from the Fire Department on emergency access concerns.

The purpose of this letter is to officially request the Select Board to instruct the Fire Department to assess the condition of these roads. Two telephone poles on the road should be included in the assessment. One of the poles is out of service. We request a written report which identifies problem areas so that we can work with our Contractor to improve them. In response to a question from the audience, Mr. Tryon also indicated that he could flag the major problem areas with tape so that the homeowner would be aware that this is an area of concern.

If possible, we would like to know in advance the dates the Fire Department would be conducting the assessment so that we could have a member of the road committee present.

Please contact us if you need additional information.
