

Minutes April 8, 196

Members Present Connie Ohman, Muriel Lazzarini, Howard Burns, Ray Tryon

Visitors Robert Hartzel, Dave Logan, Dan Andrus and Fred Vorck.

Robert Hartzel of the Department of Environmental Management presented information on the use of weevils in Lake Buel as a solution to the milfoil problem. (see file copy).

He was instructed to file an RDA for the May meeting.

Town of Monterey: The Selectmen will need to provide the commission with a sketch of the project. They also need more information concerning the mitigating measures planned to protect the river. The commission agreed to reconvene the meeting to make the Determination when the sketch is in hand. Ray Tryon stated that this is not the ideal time to do the project. It has to be done during the dry season.

The members reviewed the mail

The meeting was adjourned at 9:00 p.m.
