Monterey, MA 01245

Re: Board of Health Endorsement to Pool Opioid Settlement Dollars to Rural Recovery Center

Dear Respected Members of the Board,

As you are aware the AG's office has settled a large lawsuit and all municipalities in the Commonwealth over the next several years will be getting allocations of Opioid settlement money.

The Monterey Board of Health working in concert with the Southern Berkshire Public Health Collaborative have been facilitating and identifying ways to maximize these settlement dollars that will directly impact those that have been affected by Opioids and to determine if pooling these funds with other towns would provide the largest impact.

One organization that really provides comprehensive services and support to our residents in need is the Rural Recovery Resources/South County Recovery Center which is housed in Great Barrington. They serve all the residents of South County. Our residents are directly impacted by the services they deliver and by South County towns pooling their allocation to the RRC, it could really make further impacts to our residents.

The Monterey Board of Health at its regularly scheduled meeting on March 20, 2023, has voted to support and send this support letter to the Selectboard for their approval in hopes the town allocation could be given to Rural Recovery Resources.

Attached herein is a white paper highlighting the Rural Recovery Resources and other documents for your review. Staff from the Rural Recovery Resources can be made available if the Selectboard has further questions or if you would like them to attend a meeting on this topic. Thank you for your time and consideration on this matter.

Respectfully,

James J. Wilusz, R.S.
Executive Director of Public Health/Registered Sanitarian

Rural Recovery Resources & South County Recovery Center Massachusetts State-Subdivision for Statewide Opioid Settlement Funds Request

Statewide Opioid Settlement Funds now allocated to eligible municipalities for the years 2022-2038 include funds for all 14 towns of southern Berkshire County. **Rural Recovery Resources & South County Recovery Center requests the Town to dedicate its opioid settlement funds** – as detailed in the attached allotment per year breakdown – **to the Recovery Center to strengthen resources available to individuals and families in South County for substance use disorder prevention, harm reduction, treatment, and recovery.** Rural Recovery Resources & Recovery Center launched in 2020 with 3-year funding from the Health Resources and Services Administration’s Rural Communities Opioid Response Program. The Town’s investment will:

- Provide services support – including recovery coaching, post-overdose response, support groups, and advocacy – to the over 1700 people with substance and opioid use disorders (SUD/OD) in South County.
- Reduce deaths resulting from SUD/OD and increase people who enter recovery and thrive.
- Expand access to harm reduction and overdose prevention strategies, including naloxone (Narcan) training, distribution and community access points.
- Strengthen coping mechanisms among people with SUD/OD for facing South County’s high risk factors, increasing resiliency, and greatly reducing the likelihood of return to active drug use.
- Support family and friends of SUD/OD affected people with support groups, advocacy, and education.
- Bolster South County’s local workforce through training and collaboration with local agencies and increased support for career skills development for people with SUD/OD.
- Train professionals, healthcare workers, and first responders working in the best practices for screening, referral, stigma reduction, and provide the most up-to-date assessment of community needs.
- Continue collaborations that have already brought that have already brought over \$1.2 million into our region by leveraging small local dollars by a factor of 20:1 by accessing federal, state, and foundation grant funding.

There is a Tremendous Need

Southern Berkshire County residents face many challenges as they navigate their substance use and recovery needs.

- In 2021, more than 1700 South County residents presented to Berkshire Health Systems for health care had a substance/opioid use disorder diagnosis, but few received referrals for support in South County.
- Since launching in 2021, Rural Recovery has served more 50/week with recovery coaching and recovery support groups and over 300 people since opening the doors of the Recovery Center in April 2022.
- Overdose deaths continue to climb in Berkshire County – 62 in 2021 – with the continued impact of the COVID-19 pandemic and spread of fentanyl adulterated substances. 10 people died from overdose in 2021.
- People living in the Berkshires are more likely to experience substance use than those in the rest of the Commonwealth. Recovery focused supports address the whole picture each person is navigating.
- Accessing treatment and support for recovery in South County has been difficult to impossible in the past. South County Recovery Center is for everyone impacted: including people who use drugs, people in early and long-term recovery, friends and family, and concerned citizens who just want to help.

There is a clear need to continue to secure our region’s capacity to provide positive SUD/OD treatment and recovery support.

Track Record of Success

We advance SUD/ODU prevention and support in South County, with:

- High quality programs led by trained staff and expert partners, including All-Recovery Meetings serving 40+ people weekly, recovery coaching, financial literacy and pathways to financial stability, events and volunteer opportunities at the Recovery Center.
- Expanded opportunities for professional development for allied health professionals in Berkshire County: The Foundations of Addictions Recovery, developed and presented by Berkshire Community College in collaboration with Rural Recovery Resources; SUD/ODU Screening and Referral for Health Providers; and Regular Community Naloxone (Narcan) Trainings.
- Convene the annual *Smash the Stigma* event, convening 100-200 people annually to share experiences with SUD/ODU, recovery, and resources and to raise awareness about the impact of SUD/ODU and reduce stigma.
- Strategic collaborations to prevent/reduce substance use disorders and increase access to treatment and recovery, including with: the Berkshire Opioid Addiction Prevention Collaborative; Brien Center, South County co-responder; South Berkshire Community Health Coalition; Rural Health Network, South Berkshire Public Health Collaborative; Fairview Hospital; Volunteers in Medicine; the CSO Family Resource Center, Great Barrington Police Department; South Berkshire Ambulance Squad; Construct; and more.
- South County Recovery Center utilizes the RecoveryLink data collection platform to track Recovery Capital and to provide robust data to public health officials and funders. Recovery Capital is a metric that measures personal internal and external resources necessary for a person to achieve and sustain recovery.

Rural Recovery and South County Recovery Center – Partners and Sustainability

The mission of Rural Recovery Resources and South County Recovery Center is to lower the morbidity and mortality associated with substance use and to foster a culture of compassion and empathy in our peer-driven community. We are committed to engage, assist, refer, and empower people who are affected in any way by addiction; to improve their health and wellness, live a self-directed life, and strive to reach their full potential, in a judgment-free atmosphere.

By leveraging community partnerships, Rural Recovery Resources and South County Recovery Center was launched in 2020 as part of a 3-year consortium grant from the Human Resources and Services Administration's Rural Communities Opioid Response program to increase prevention, treatment, and recovery access in South County. The core consortium partners – Railroad Street Youth Project (fiscal agent), Brien Center, Fairview Hospital, Berkshire Community College, Rural Health Network, and Southern Berkshire Public Health Collaborative – work in tandem to change the landscape and make South County a place where people impacted with SUD/ODU can find support, access treatment, find paths to recovery and thrive.

To make sure the resources created and launched since the project's launch continue and expand, Rural Recovery Resources and South County Recovery Center will incorporate as a stand-alone 501(c)(3) non-profit over the next year. We are continuing collaboration with our partners to ensure the work we've already completed, such as education, prevention, screening, referral, recovery coaching and operation of the Center will be sustained and continue to assist those in South Berkshire County affected by SUD/ODU long into the future. Utilizing opioid settlement funds are vital to securing this important, much needed, community resource and addressing the deep impact of the opioid epidemic in South County. Securing the Recovery Center as a place and resource for the people most impacted is the most direct route to meeting the mandated use for the funds: strengthening resources available to communities and families for substance use disorder prevention, harm reduction, treatment, and recovery for South County.

For more information contact: Gary Pratt, Director, Rural Recovery & South County Recovery Center, gary@rural-recovery.org or 413-854-5828.

Town of Monterey FAQ
Estimated Opioid Settlement Payments
Settled by the MA Attorney General's Office
as of 3/1/24

How much will the Town of Monterey receive with existing settlements?

There are currently 6 settlements that have been offered to the Town of Monterey through the MA Attorney General's Office, each with their own time frame and allocation formula. These settlements will be dispersed through 2031. If Monterey chooses to participate in all of them, the following represents payments received for this fiscal year (FY23), anticipated payments in FY24 and the total amount anticipated over the next life of all the current settlements, based on information on the State website known as of 3/3/21 on www.mass.gov/lists/municipal-abatement-payments

FY23 Funds:	\$ 1,863.19	<i>Funds received as of 3/1/23 in FY23 that includes years 1-5 from J&J (paid 11/2/22) and "Distribution Payments" (paid 7/15/22 and 9/30/22)</i>
FY24 Total: (Approximate)	\$ 1,166.12	<i>Walmart, Teva, Allergan, CVS, & Walgreens - if the Town signs settlement agreement</i>
Total through 2031: (Approximate)	\$ 9,385.22	<i>Total anticipated funds for Town of Monterey over 19 years with participation in settlements from J&J, Walmart, Teva, Allergan, CVS, & Walgreens</i>

What can be done with the settlement funds?

Funds are limited to the care, treatment, and other programs and expenditures designed to

- (1) address the misuse and abuse of opioid products,
- (2) treat or mitigate opioid use or related disorders, or
- (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

In the settlements' abatement terms, municipalities are encouraged to pool their resources to make maximum impact. Settlement funds can also be directed towards agencies and organizations that support people impacted by opioid use disorder. In Southern Berkshire County, many towns are making the decision to support the Rural Recovery Resources' South County Recovery Center.

Rural Recovery Resources and South County Recovery Center was launched in 2020 as part of a 3-year consortium grant from the HRSA to increase prevention, treatment, and recovery access in South County. Already, the Recovery Center's work has had a direct positive impact on people who have been impacted by opioid use disorder making their work eligible to receive settlement funds.

How can the town appropriate funds?

Towns have already received the first 5 years of the settlement in FY23. Because these funds came directly to the towns vs through a grant, those payments have been put into the general funds in FY23, meaning the Towns now need to appropriate the funds to be used for their intended purposes. There are a few ways of doing this, per the MAHB opinion document. The Massachusetts Health Association Board (MAHB) has issued an opinion on how this can be done, which are also summarized on the back of this FAQ sheet. Your town accountant may have their own strategy to ensure that these funds are used for their required purpose.

What are we asking the Selectboard to do?

We respectfully request that settlement funds received in FY23 be appropriated to support the South County Recovery Center for substance use disorder prevention, harm reduction, treatment and recovery. More information on Rural Recovery Resources can be found at www.rural-recovery.org

Town of Monterey FAQ
Estimated Opioid Settlement Payments
Settled by the MA Attorney General's Office
as of 3/1/24

What are options for appropriating opioid settlement funds received during FY23?

Option A: Appropriate Funds Directly at Town Meeting

(upon

certification of free cash) - One option presented by MAHB

To see if the Town will vote to appropriate a sum of money from the FY23 General Fund Revenue [for whatever the municipal's general fund is called] when certified as free cash to be expended in accordance with the Massachusetts State-Subdivision for Statewide opioid settlement funds; funds to be used to supplement and strengthen resources available to communities and families for substance use disorder prevention, harm reduction, treatment, and recovery or to take any other action relative thereto.

(Select Board)

MOTION MOVED AND SECONDED that the Town vote to appropriate \$ _____ to be expended in accordance with the Massachusetts State-Subdivision for Statewide opioid settlement fund, funds to be used to supplement and strengthen resources available to communities and families for substance use disorder prevention, harm reduction, treatment, and recovery; and that to meet this appropriation \$ _____ be funded from the **General Fund Revenue [for whatever the municipal's general fund is called]** when certified as free cash by Miscellaneous Non-Recurring General Fund Revenue.

Option B: Create and Fund an Opioid Stabilization Fund at Town Meeting

(This would secure the funds which could then be appropriated by 2/3 majority approval at a Town Meeting) -
One option suggested by MAHB

Step #1: Place Article to Create a Stabilization Fund on Town Meeting Warrant

To see if the Town will vote to create an Opioid Settlement Stabilization Fund in accordance with Massachusetts General Laws, Section 5B of Chapter 40, and to appropriate a sum of money to such fund; determine whether this appropriation shall be from free cash, other available funds or otherwise; and take any other action in relation thereto.

(Selectboard)

MOTION MOVED AND SECONDED that the Town create an Opioid Settlement Stabilization Fund in accordance with Massachusetts General Laws, Chapter 40, Section 5B.

Step #2: Article to Fund Opioid Settlement Stabilization Fund

To see if the Town will vote to transfer from Free Cash, or other available funds, to the Opioid Settlement Stabilization Fund established at the _____ 202__ Town Meeting or take any other action in relation thereto.

(Selectboard)

MOTION MOVED AND SECONDED that the Town vote to appropriate \$ ____ [Amount of Settlement Proceeds Seeking to Appropriate] from Free Cash to the Opioid Settlement Stabilization Fund established at the ____ Town Meeting.

Option C: Create a Line Item in FY24 Budget

Another strategy being adopted by some communities is to create line item in FY24 Budget named to make it clear it is to be used for opioid mitigation include the dollar amount recieved in FY23 fiscal year in that line item.

These approaches are provided for educational purposes only are not to be construed as legal advice. For legal advice, please contact your town attorney. The approach for your town to secure these funds should be made by your town leadership and accountant.
